- Expand your network with colleagues from different countries and backgrounds.
- Discover the latest trends and insights in collaborative learning.

For whom?

- Teachers
- Researchers
- Policymakers
- Students with an interest in educational innovation

CELE 2025 IN BELGIUM, HASSELT

Description of the congress: This two-day seminar brings together teachers, school leaders and researchers from Belgium, Finland, Estonia and Uganda to exchange ideas and experiences on creating and improving collaborative learning environments.

Topics for discussion include the HILE model, artificial intelligence tools for learning, student and teacher well-being, an interdisciplinary curriculum, interdisciplinary curriculum design for highly interested and gifted students, and the internationalisation of national curricula.

This congress presents the findings and results of a three-year project in which the HILE model has been implemented in four GO! Scholengroep Xpert schools are located in Belgium.

Venue: Corda Conference- Kempische Steenweg 311 - 3500 Hasselt, BELGIUM
